

East Park Use Area Enhancements

The proposed East Park Use Area improvements include a new park entrance, an enlarged parking lot, an overflow parking area for special events, and enhanced core facilities. The proposed core consists of an improved restroom building, a new concessions building, gathering spaces with seating, and an enlarged playground. The overflow parking area is reinforced turf rather than asphalt so that it can serve other functions when not being used as a parking lot. A small archery range is proposed for the area just west of the overflow parking. Both safety and amenities are improved for this use area.

Total Spaces: 168 Cars (plus 138 for Special Events)

Key Features

- 1 New Entry Location and Park Road
- 2 Enlarged Parking
- 3 Special Event Lawn with Seating
- 4 Enhanced Playground
- 5 New Concessions Building
- 6 Walking Loops and Trails
- 7 Special Event Overflow Parking
- 8 Potential Archery Range
